New Jersey Association of Senior Center Directors

October, 2008

To all Mayors, Council and Committee Members

You are cordially invited to attend the League of Municipalities Workshop, *Redesigning Your Senior Center for Today and Tomorrow* on Tuesday, November 18 in Room 420 of the Atlantic City Convention Center at 2 PM.

How will your community respond to the growth of the senior population? Today's senior center may be no match for the challenges of tomorrow. This workshop will discuss the compelling reasons to reposition your senior center programs, services and facilities to address the needs and preferences of your increasingly diverse elder population. Municipal officials, senior center directors and design professionals will help you envision new and renovated facilities that are possible even on a limited budget.

Those communities that currently do not have senior centers will gain useful insight into planning effectively to respond to the needs of their changing and aging population.

NJASCD looks forward to your participation.
