Subject: Re: Flooding

Mr. Mayor:

I have been a township resident living at 33 Manor House Rd. for over thirty years. The flooding that takes place at the intersection of Rt. 46 and Manor House Rd. is surely an inconvenience! On several occasions I have called to try and find out what is being done to correct the problem. Learning that the township has hired trappers to drown the beavers...which I have learned is the cause of the flooding...is certainly **unacceptable** to me! I am sure there are other resources that could be used to solve the problem and as a taxpayer and Manor House resident, I hope you look for them.

Respectfully,

Stephen C. Goldman
