Subject: Local Government Energy Savings Resources Meeting

Dear Municipal Clerk:

Over the last several months the State has started several important initiatives that align with the Governor's Energy Master Plan on how local government agencies can reduce their energy usage, increase their clean energy usage and gain the many cost and environmental benefits that comes from this improved and cleaner energy usage.

New and enhanced financial incentives for installing energy efficient equipment and conservation measures, renewable energy facilities, financing for capital improvements, rebates for energy audits and technical assistance are some of the new resources available to municipal governments.

To kick-off a series of programs that will discuss these programs and how they can be used, the Board of Public Utilities' Office of Clean Energy, in partnership with the DCA Division of Local Government Services, and the new Sustainable Jersey Program, are holding an orientation program on Wednesday morning, April 15 at the New Brunswick Hyatt.

Details are being finalized for this first session, so mark your calendar now and watch your e-mail for registration information on attending this important event.

Recipients are asked to share this with appropriate individuals in your organization.

THIS E-MAIL HAS BEEN SENT TO THE FOLLOWING OFFICIALS: Municipal Clerk, County Clerk to Board of Freeholders, Authority Officials and Fire District Officials.

PLEASE REMEMBER: If your e-mail address changes please make the change to your GovConnect User Profile. If you change employers please send us the details by replying to this e-mail. Helpdesk 609.943.4724
