Re: Mountaintop Assembly of God Church
6 Naughtright Road
Block 8400, Lot 3

Dear Mr. Perkins:

Our office represents the church and we would appreciate the opportunity (in the future) to connect to the Hackettstown Municipal Utility Authority sewer line currently installed in front of the church. Through discussions with the HMUA, they will require a formal letter from the Township expressing support of the project.

We realize that prior to a possible connection to the sewer main, the Township Wastewater Management Plan must be amended by the Township Engineer, and the new Plan must be then approved by the NJDEP. This process will take many months and/or years.

We would appreciate your consideration in allowing this sewer connection in the future, and we would like to discuss the possibility of amending the Wastewater Management Plan to include the church property in the HMUA sewer service area at the next available council meeting.

Thank you for your consideration.

Very truly yours,
