### **TRAILS – FUNDING THE WAY**

---

Our speakers will focus their discussions on how communities can integrate the new NJDOT Complete Streets Policy as part of their trail networks in order to achieve a connective transportation and recreation system. Our speakers will also discuss the funding application process, unique requirements, and typical pitfalls to avoid. Speakers will also touch on the future direction of trail related funding. The audience will have the opportunity to learn the difference between agencies requirements and design standards for each program and see examples of final projects from both funding sources. Additionally, the NJ Trails Plan and how it relates to Morris County will also be reviewed.
