Council

April 24, 2010

Attn: Mr. Philip Toley

I was very upset to hear that Diann Brochu was being laid off from her job. She has always been very helpful to all the seniors in town. She is a very important part to the function of this town.

I am sure there are other places the town could make cuts. By cutting Diann you are hurting many of the seniors that depend on her. The town should be ashamed letting her go. I would like to know who is the person responsible for letting her go?

I hope you will think this through and reinstate her position. I am sure the town council can make a difference in this matter. Otherwise, why do we have a town council and what exactly is there function, if not to solve a problem like this one.

Thank you,

Carol Zanella
