**Subject:** New From New Jersey Natural Gas

**Good news from New Jersey Natural Gas (NJNG)!** Our meter readers are now in your community on a monthly basis to read natural gas meters. This enables NJNG to provide our customers with an accurate bill based on an actual usage every month. An estimated bill will only be sent if we do not have safe access to a natural gas meter or in cases of severe weather.

Some of our customers are unaware of our recent switch to monthly meter reading, so I encourage you to share this information with your residents. The approximate date we can be expected on a customer's premises to obtain a meter read is printed on the bill each month. In addition, to ease any concerns of an intruder on a resident's property, all of our meter readers wear either a bright lime green safety vest or t-shirt. Both the vest and t-shirt read "New Jersey Natural Gas" in large letters on the back. Our meter readers are also required to carry an NJNG photo identification card while working in the field. A customer can request to see this card at any time.

If you or anyone in the township office has a question about meter reading or NJNG, please feel free to contact me at the telephone number or e-mail address below.
