I am a bit confused here?

We are going to set up a safe haven for feral cats here in Mt. Olive to satisfy some special interest group?

I am asking the board to strongly reconsider their position on this:

1. Feral Cats destroy the natural wild life in place, (i.e. birds, rodents, etc.)
2. If this measure passes then MO will become a dumping ground for cats for the rest of the neighboring towns.
3. Last but not least there are more important issues such as the current state of some of our schools, roads, and other issues which we need to take care of.

When I voted last election this is not the change I am looking for.

Thank you,
Anthony Lombardozzi
