Subject: New Morris County Online Road Construction map

July 7, 2009

MORRIS PRODUCES ONLINE ROAD CONSTRUCTION MAP

The Morris County Division of Transportation has prepared a new Web page for planned road construction projects in Morris County.

The Web page, www.morrisdot.org/roads/roads-construction.asp, includes an interactive map and printable PDF list providing the approximate dates and descriptions for nearly 200 municipal, county and state road, bridge and sewer projects.

The Web page is meant to serve as an informational tool for commuters so they may avoid time-consuming delays due to road construction.

The information covers projects scheduled to start in 2009 and 2010, and was provided by the project sponsors.

The road construction information may also be accessed from the Division of Transportation Web site, www.MorrisDOT.org, along with other transportation information such as maps, guides and schedules.

Transportation information may also be requested by phone at (973) 829-8101 or email at mcdot@co.morris.nj.us.
