Subject: Jersey Central Power & Light Company (JCP&L)  
NJDEP LURP File No. 0000-05-0010.1 FWW 050001 CSW 050001  
Wetlands General Permit No. 1 / Special Condition #3  
Municipal Notification –Routine Maintenance Activities

Dear Sir or Madam:

Pursuant to Special Condition #3 of the subject Permit, which was issued on June 21, 2005 and is valid through June 21, 2010, JCP&L is hereby providing notification of its intent to undertake routine maintenance activities that may occur within wetlands or wetland transition areas within your municipality. As also required by this Special Condition, JCP&L is hereby providing a street map showing the location of those transmission rights-of-way scheduled to be maintained in 2009 within your municipality.

The routes highlighted on the enclosed map depict the general location of transmission rights-of-way where routine maintenance activities are scheduled to be conducted. These activities include pole/tower repair and/or replacement. These activities are being undertaken in an effort to reduce/eliminate power outages and to maintain the electrical system in good working order.

To the extent these maintenance activities may occur within wetlands or wetland transition areas, they are being conducted in accordance with the terms and conditions of the subject Wetlands General Permit #1.

If you have questions regarding this activity, please contact Douglas Wasser, JCP&L Asset Management Department at (973) 401-85857.

Sincerely,

A handwritten signature in black ink that reads "Bede T Portz".

Bede T Portz
