Ord.#30-2015 An Ordinance of the Township Council of the Township of Mount Olive Amending Ordinance #30-2014 Entitled Fees and Rates for Off-Duty Police Officers. PDF Ord

President Nicastro: Mrs. Labow.

Mrs. Labow: Thank you Mr. President. I move for adoption and final passage of Ordinance #30-2015.

Mr. Roman: Second.

President Nicastro: Does anyone from the public wish to be heard? Seeing none. Any discussion? Mrs. Labow.

Mrs. Labow: I just want to ask a quick question, do we know how it’s decided on who gets these extra jobs?

Mr. Mania: That’s within the Police Department, I would say.

Mr. Semrau: They have their own rotation...

Mrs. Labow: They have their own rotation they go through?
Mr. Semrau: ...that they have to abide by.

Mr. Mania: Yes, yes.

Mr. Roman: I think that’s in their police...their union contract.

Mrs. Labow: Okay, so it’s not like we can’t say please can you use the new guys first?

Mr. Mania: The lower guys, yes, I agree with you Colleen.

Mrs. Labow: I had to ask, thank you.

President Nicastro: Who seconded that? She didn’t get it.

Mrs. Labow: Alex did.

Mr. Mania: Alex did.

President Nicastro: Any other discussion? Seeing none. Roll Call, please.

Roll Call: Passed unanimously

President Nicastro: Ordinance #30-2015 is passed on second reading and I hereby direct the Clerk to forward a copy of the same to the Mayor and publish the notice of adoption as required by law.

ORDINANCES FOR FIRST READING – 2nd reading January 12, 2016

President Nicastro: Next item on the Agenda for First Reading is Ordinance #1-2016,

Ord.1-2016 An Ordinance of the Township Council of the Township of Mount Olive to Adjust Water Rates Within the Township for Services Rendered on or After the Second Quarter 2016. PDF Ord

President Nicastro: Mr. Mania.

Mr. Mania: Thank you Mr. President. I move that Ordinance #1-2016 be introduced by title and passed on first reading and that a meeting be held on January 12, 2016 at 7:00 pm at the Municipal Building, 204 Flanders-Drakestown Road, Budd Lake, New Jersey for a public hearing, consideration of second reading, and passage of said Ordinance and that the Clerk be directed to publish, post and make available said Ordinance in accordance with the requirements of the law.

Mrs. Labow: Second.

President Nicastro: Any discussion?

Mr. Semrau: I would just note that I’ve been working with the Administrator on the Morris Hunt Water transition and what we’re doing is, thanks to Rose Barsanti for bringing it to our attention is, we’re going to coordinate that transition with this rate change so that there’s no confusion or reconciliations necessary. We’re moving back that transfer to February 1, 2016, as well.

Mr. Mania: Okay.

Mr. Semrau: We appear to have confirmation to do that, so I want thank Laura for bringing it to our attention, and Rose. I think it’s going to be a much smoother transition.

Mr. Mania: Fred, will that apply also to Morris Chase? When it’s ready?

Mr. Semrau: When it’s ready, yes.

Mr. Mania: Okay.

Mr. Semrau: The rates will, yes.
President Nicastro: Mrs. Labow.

Mrs. Labow: I just want to ask a quick question of Fred, this is going to sound like a crazy question, but we’re introducing a 2016 Ordinance tonight. Now, if we’re all still going to be the same people in January…if it was going to be different members, would we still be allowed to do that?

Mr. Semrau: Now, I had a feeling when I was asked this question by the Administration, I could hear you ask…

Mrs. Labow: Ask that question.

Mr. Semrau: …it’s a good question. Normally, when you have a governing body and you’re at the last meeting of the year, you cannot introduce legislation and then adopt it in a subsequent year, everything ends, but because we’re going to keep the same seating for the subsequent year, there’s no changes, then it would be acceptable, so under the circumstances. If there was one seat that was going to change, we wouldn’t be able to do this. This is fine.

Mrs. Labow: I’m just asking just to make sure we get it on the record.

Mr. Semrau: For the record yes, it’s fine, yes. Thank you.

Mrs. Labow: Thank you.

President Nicastro: Any other discussion? Roll Call, please.

Roll Call: Passed unanimously

MOUNT OLIVE TOWNSHIP COUNCIL MINUTES

December 22, 2015

We continue to work with Chuck McGroarty, as well as his assistant Catherine Natatafalusy to put together a housing plan. That’ll happen in the first quarter of next year and much of that work will come forward in the form of an amendment to the plan that would be the Planning Board and then come back before you to let you know what the proposed plan is going to be as we try to make the deadlines. We have to meet the deadlines of the Superior Court, which will be in the first quarter of next year all of this will transpire, so you’re going to probably hear a lot of that. Many communities are going through this and again, it’s to make sure you… the Township has always done very well in maintaining its affordable housing obligation and not being subject to builder’s remedy type law suits and things of that nature, so that is going to be a significant effort in the first quarter of next year and it’s all in the works as we speak. Chuck McGroarty has done a terrific job over the years and he’s just going to put together a revised plan for your consideration. Besides that, Happy Holidays and thank you again for allowing us to represent you this year.

President Nicastro: Thank you Fred.

Mrs. Labow: I was just going to ask Fred if you had an update on Cobblestone for us. Nanette had mentioned something about it.

Mr. Semrau: Yes, we continue on Cobblestone. There’s a new owner, the property was actually foreclosed upon. We have some issues with respect to some of the maintenance, they were advised today. We were made aware of some things that need to be addressed there and we are now… it’s a bank from California that foreclosed on the property, they have counsel in New York and we have been in communication with them. We need to get back on the property to test to make sure there’s a back up well for the property that would support that development before the Township were to go forward with that project. The two steps that we’re working on is one, obtaining access, we believe a court would give it to us, we think this lender has already verbally said they would permit us to have access and number two is to have Boswell Engineering go back out, we have to schedule the date for them to go out and I believe it’s going to be in the middle of January to test for that second well, the back up well. If it comes back with positive results, then we’ll have completed our due diligence and we’ll be in a position to speak further to the governing body about the next steps. We are on hold in a condemnation action with the property owner. We always have the right to try to work something out, but in this case, now it’s the lender who’s taken over, so we’ll continue to keep you apprised. Once we receive the information from the testing for the second well, then we’ll have all the data collected and be able to identify if it’s a suitable site for the Township.

Mr. Roman: Fred, how many water tests have we done? My recollection, we’ve done numerous.

Mr. Semrau: Well, we did, that was for the site and the first well, but it was the DEP when we went to have a preliminary meeting on the permitting process, the DEP came back and said that’s great that you can have one well, but based on the fact that you may have multiple units here, the DEP insisted on us demonstrating as a Township, or whoever develops the property that there’s a suitable back up well available. That’s why we have to go back, otherwise we’re not going to have that permitting and we don’t want to take that chance and assume in any way that we’ll meet that requirement, so we’re doing that due diligence now, that second well test, because you’re right, we’ve already gone through this drill once before.

Mr. Mania: Yes.

Mr. Semrau: We really need to do that in order to be certain that we don’t begin to develop a property or have a developer come forward and then tell us that it’s not suitable. This is the last step.

Mr. Roman: How does the fact that we’re going to be required to have a second well… how is that going to affect our COAH, are we still okay with our COAH because this application was started?

Mr. Semrau: Well, for affordable housing you have to demonstrate that there’s a probability that you’ll be able to develop this. We think this site, for the last few years has been suitable and desirable to have affordable housing there and so in order to go forward we need to demonstrate even in our plan that this second test does support this development. Otherwise it really won’t be part of our plan, and it wouldn’t be a property acquisition for the Township.

Mr. Roman: Thank you.

President Nicastro: Mrs. Labow.

Mr. Mania: Yes, that was explained to us at the Planning Board level.
MOUNT OLIVE TOWNSHIP COUNCIL MINUTES

December 22, 2015

Mr. Semrau: I just want to mention too, about that and this was a good decision by the governing body. You may recall about three years ago the Governor had discussed taking the affordable housing monies that weren’t spent...

Mrs. Labow: Right.

Mr. Mania: Right.

Mr. Semrau: …and that’s when the Township took the position, well what we’re going to do is we’re going to look at a site such as this and have affordable housing, not in high density type development, but in a suitable site and go forward, and that’s where we’re going to put our dollars and now it turned out that that very much could be one of the components that will help in the development of an affordable housing plan. The funds that are being used to, for example, test the wells, are coming from the developer fees that were contributed because this is an affordable housing type project.

President Nicastro: Mrs. Labow.

Mrs. Labow: Fred, this is going to sound like a crazy question, but if this house was foreclosed on, it went up on a Sherriff’s sale, how come we didn’t grab it on the Sherriff’s sale?

Mr. Semrau: No, no, it was foreclosed upon by the lender. The lender took the property.

Mrs. Labow: The lender, but on the Sherriff’s sale, the lender they still, they end up buying it, so that’s what they did? Or did she do a deed in lieu?

Mr. Semrau: The lender basically, yes.

Mrs. Labow: She did a deed in lieu?

Mr. Semrau: That’s correct.

Mrs. Labow: Okay.

Mr. Semrau: We tried negotiating with the lender before they took over, thinking that this would be great.

Mrs. Labow: Okay, that’s what I wanted to know.

Mr. Semrau: What we’re hoping is that they’ll have a much more realistic expectation. Lenders that foreclose on properties don’t really want to hang around and hear about maintenance and things like that.

Mrs. Labow: Right.

Mr. Semrau: Once we’re done with this phase, I would imagine we would have an Executive Session and talk about what would be the ultimate price if that’s the way you were going to proceed.

Mrs. Labow: Is the ambulance company still using the property to park their ambulances? I haven’t been over there.

Mr. Mania: No, I don’t think so.

Mr. Semrau: I don’t believe that…

Mr. Mania: I don’t think so Fred.

Mr. Semrau: No, I don’t think so.

Mrs. Labow: We had talked about that before and we didn’t want to say anything really because we didn’t want to make it contentious.

Mr. Semrau: Now there’s just some maintenance and upkeep issues that any lender who takes over would be responsible, as we do that for other properties.

Mrs. Labow: Thank you.
President Nicastro: Anyone else? Let’s see, thank you Fred.

COUNCIL REPORTS

President Nicastro: Mr. Amianda, anything on Board of Ed?

Board of Education Liaison Report

Mr. Amianda: The Board of Education Liaison Report is to follow in writing. If you need copies, see the Town Clerk tomorrow.

Mrs. Labow: Nothing on Seniors or Economic. I just have, just something to put out there, not really from the TNR group, however several members of the TNR have been very concerned about the bear hunt and there are some towns that have prohibited bear hunting in their towns, so they were asking what are the possibilities of Mount Olive doing the same. Years ago we had had a Resolution opposing, I know it’s too late for this time around, but, I’m kind of putting it out there. Everybody think about it, if it’s something we want to move forward with.

Mr. Roman: I’m opposed to any opposition to the bear hunt.

Mr. Stewart: I agree

Mr. Ferrante: Same here.

Mrs. Labow: Alright, so the answer, I’ll go back and say no, there’s no support for it.

President Nicastro: I would leave it to the State.

Mr. Mania: We have residents complaining that their garbage cans are being turned over by bears...

Mrs. Labow: Yes.

Mr. Mania: ...and now we want to stop the bear hunt.

Mrs. Labow: That’s pretty much what I had told them and they were saying one of the things with the bears that actually get killed out in the woods are the ones that have cubs and then the cubs don’t learn how to care for themselves, so that’s why they end up going to garbage cans, but I’ve seen female bears running through Town with three cubs.

Mr. Roman: They’re tasty.

Mrs. Labow: I think the ship has already sailed for trying to teach the bear...

Mr. Mania: Good God Alex.

President Nicastro: That’s the next meeting? Oh, that was yesterday.

Mr. Ferrante: Yesterday.
